**Subject: R.01-08-028 EM&V Submission**

The following is a list of potential contractors that DCEEP could use for fulfilling the evaluation, measurement and verification of local energy efficiency programs.

All three firms are qualified based on preliminary review of information. The DCEEP would follow standard city of Davis procurement for these services and would evaluate the qualifications of the firms at that time.

All three listed contractors are independent of DCEEP and the city of Davis as there have been no previous contracts with these firms.

None of the three firms have done previous work for DCEEP or the City of Davis.

There are no known factors that would lead a reasonable person to question whether the listed firms are actually independent of the DCEEP and the city of Davis.

There are no known reasons why the Commission might not select any of the three listed firms.
